New! E-Commerce Boxes & Shippers

Crafted in E flute Corrugate

• 94 flutes per foot provides greater crush resistance compared to B Flute at 42-50 per ft.

• 1/16" board thickness reduces carton size which saves shipping cost and storage space.

• Narrow fluting creates an ideal printing surface, thus an excellent choice for your custom needs.

Outer Shipper
Fits BF2 & BF3 Boxes

1 Unit = 1 Box

Perfect Bows Easy as 1-2-3!

Perfect Bows are individually packaged and have 3/16" pull strings which can be curled or used to attach bow to a package or basket.

1) Let bow hang down and find strings.

2) Push on bow while pulling on strings.

3) Now your bow is perfect!

Our Flora-Satin and Sparkalene ribbon are the perfect width for the bow machines and therefore you can be free of star bows with flipped loops. Our ribbons are embossed, which helps the machine grip and pull the ribbon properly. The cores are made to fit the machines so no adapters are needed. These ribbons can also be used on the S-13 pom bow machine, however if you prefer more fabric feel and an easier pull when opening, try satin acetate which can be found on page 74.

Screen Printing

Hot Stamping

Flexo Printing

General Information for Post-Printing

- Standard Lead Times:** We strive year round to provide a ten business day lead time. Lead times are subject to fluctuations in machine capacity and product availability. The total quantity of impressions will also effect lead times, please add additional time for more than 5,000 total impressions. For example: the total number of impressions on a 2 color logo printed on 2 sides is 4 impressions per bag.
- Approvals:** Signed sales order acknowledgements & proof approvals must both be received before lead-time can begin. If received by 9 am CST, it counts as day one. Please carefully check all details on both the art/placement proof as well as the acknowledgment since a signature confirms the accuracy of all information and is an agreement to all charges stated.
- Quantity Pricing:** Post-printing allows us to combine multiple sizes of the same style of product to accumulate toward the per thousand cost, provided one common plate & foil/ink are used. Specifically when Hot Stamping, changing the plate or foil using a \$20 change fee is a good way to obtain quantity pricing. Change fees cannot be used in screen, flexo printing or second side printing. When printing each side with different artwork, use pricing for 1 sided pricing x 2, as the job requires two set ups and may run on different machines.
- Rush Orders:** A 25% upcharge of the printing price (minimum of \$50) will be applied to any order requesting a quicker ship date than current lead time allows. Additional charges to air freight new plates may be required. Rush charges are subject to changes due to production schedule and time of year. In the 1st & 2nd quarters of the year, quicker lead times may be available with no additional upcharges; call customer service to inquire.
- Artwork:** We can accept pdf, ai, or eps files. Artwork must be vector and outlined. Jpeg artwork will not provide quality printing in one color printing, and cannot be used for multiple colors. Changes made to supplied artwork will be billed at \$60 per hour with \$15 minimum charge. We can print up to 45 line screen in Flexo and up to 100 line screen in Screen Printing. In Hot Stamping half tones (screened effect) do not appear the way they do in ink. Instead a half tone adds texture to the solid foil impression.
- Proofs:** Up to 2 proofs (per size) are included with each order. Additional proofs will incur a \$15 charge per proof. Please check all details on proofs carefully as electronic artwork does not always transfer consistently and minor changes can occur.
- Registration:** Screen Printing tolerance is 1/16" shift in any direction between colors
Hot Stamping is 1/8" and Flexo Printing is 1/2" in any direction with no critical alignment.
Process Printing, by nature, registers multiple colors in critical alignment.
- Coverage:** Hot Stamping & Flexo Printing cannot tolerate heavy ink coverages therefore we recommend screen printing for those applications.
- Merchandise & SOS Bags:** Merchandise and SOS bags are Hot Stamped flat when printing one side which creates a ghost impression on the back of the bag. To avoid this, the bags can be inserted; a 50 fee applies per 1000.
- Restrictions:** In Flexo Printing, a \$50 insert fee per 1,000 impressions applies to any bag with an overall length measuring less than 11".
- Labeling:** Provided labels can be applied at time of printing, or converting, for a charge of \$9.00 per 100.

Easily identify the printing method.

Follow this coding system to identify the printing method available for the products listed in this catalog. SS = Screen Printing, HS = Hot Stamp, FL = Flexo Printing. This will be located in the far right side of the header line. The letters will appear where that method of printing is available for that item.

Product Code	Size	Pkg	Wt/Pkg	FL HS SS
White Gloss (Economy) Gift Boxes				
BX-GE333	3" x 3" x 3"	100	5	FL HS SS

Plate Costs & Screen Charges

Hot-Stamp Plate Cost:

To determine plate size in square inches add 1" to both width and height of image and multiply together.							
Up to 30"	31" - 40"	41" - 50"	51" - 60"	61" - 70"	71" - 80"	81" - 90"	Over 91"

Flexo Plate Cost:

To determine plate size in square inches add 1" to both width and height of image and multiply together.							
Up to 30"	31" - 40"	41" - 50"	51" - 60"	61" - 70"	71" - 80"	81" - 90"	Over 91"

Flexo Printing

A rotary system using water based ink and a flexible plate which is mounted directly onto the printing cylinder. The plate is kept on file for future use. It is our fastest post-printing process and quite economical. Product options are limited to paper finishes for ink absorption. Product with handles must be fixed like that of a twisted paper handled shopping bag. Bags with rope handles will not run on this type of printing machine. Single color prints are best suited to this process. When printing multiple colors, registration cannot be critical due to machine variances.

Ink color will vary due to absorption and texture of surface being printed.

Custom Ink Colors Available

Initial Order: \$80-125 per color

Repeat Order: \$15 per order

Pricing per 1,000 pieces (or Minimum Charge if less than 1,000)

Paper Shopping Bags & SOS Bags (Universal size shopper is excluded)

Per Color / 1 Side

Per Color / 2 Sides, Same Plate Used

Per Color / 2 Sides, 2 Different Plates Used

Paper Merchandise Bags

Per Color / Per Side

Paper Boxes including Gift, Bakery & Apparel

Per Color / Per Side

Size Changes are FREE!

Combine multiple sizes of the same style of product to accumulate toward the total quantity printed and use that number to determine print charges. This assumes the same plate and ink color are being used on the entire quantity. Same style refers to categories of like product such as Shopping Bags, Gift Boxes, Merchandise Bags, Gable Boxes, SOS Bags etc.

Standard Ink Colors For Flexographic Printing

Hot Stamping

This process uses a metal plate in combination with heat, pressure & duration to transfer the foil to the surface of the product, leaving the desired impression. The plate is kept on file for future use. Foil colors can be metallic, matte, or gloss. Each foil has a different backing to adhere to different substrates. Printing colors are limited to available foil from our suppliers. If a specific PMS color is desired, screen printing is the better option. This is the only method to obtain a true metallic image.

2 Sided pricing only applies when same artwork is printed on both sides, use 1c/1s pricing x 2 if not the same.
Not all foil colors will adhere to all product types. Additional Foil Colors available at an upcharge.

Pricing per 1,000 pieces (or Minimum Charge if less than 1,000)

Special Effects

Screen Printing

In this method a screen is used instead of a plate. Ink is pushed through a fine mesh screen to transfer the desired image to the product. It is our most versatile process because of its gentle and precise nature. We can match any PMS ink color when printed on a white substrate. When ordering a colored substrate, please be aware that the background will effect the end result and change the color. Therefore, we suggest you request an ink draw down to assure the color meets your customer's expectations. Multiple colors can be accomplished on a wide variety of products. We use UV ink which creates a glossy finish. A matte additive can be requested to remove the gloss; or a metallic powder can be added to the ink to create a brushed metallic look. Screens must be made on every order, repeat or new as the screen is reclaimed and used again. The film used to make the screens is stored in the file to be used on future orders.

Choose Screen Printing When...

Large Print Area

When your artwork covers a large area. Excessive foil needs raise cost. Screen printing is cost effective for these situations

Screened Colors in the Artwork

Use varying percentages of ink to create a print that looks like multiple colors.

Multiple Colors

Discounts for multiple colors. Sizes combine when using the same artwork.

A Specific Color is Required

We mix our own ink which means you get the color you want!

Heavy Ink Coverage

Large coverage in hot stamping means trapped air and broken foil. Screen printing is the solution.

Tighter Registration Between Colors

Our tightest printing option at 1/16" shift between colors.

Gloss or Matte Finish

Our ink is naturally glossy; get an upscale look without using foil. Add matte additive for a natural look.

Larger Print Runs

Price breaks are given for longer runs.

Change Color in Run

\$50 Ink wash charge provides the opportunity to change colors while on press.

Sizes Combine for Quantity

No upcharge to combine multiples sizes. As long as they use the same screen, we'll set up the additional size for free!

High Sparkle Glitter Inks Add \$25 per 1,000 impressions

Chargeable Samples: The "Samples Each" icon indicates products that will incur a sample charge. Chargeable samples are treated like an order. They ship in 24 hours, require a PO and will incur freight. Use the Each column for price. The product code for a chargeable sample is the standard product code with an "X" inserted after the dash. (ie. CM-994BLA is a CASE and PP-X994BLA is a SAMPLE.)

Actual (Ship) Wt: The number to appear first is the actual or physical weight of one selling unit. The number shown in parenthesis is the dimensional weight of the product, or the shipping weight if shipped by itself. (ie. BX-53WK 8 (14) has a physical weight of 8 lbs however when shipped via UPS or Fed Ex, ground or air, the shipping weight is dimensional at 14 lbs.)

© Identifies products manufactured in China that may be subject to future U.S. tariffs.
